Main Idea 3 LS 3.e

When environments change, some living things may become extinct. We can study fossils to learn about ancient plants and animals and their environments.

主題思想 3 LS 3.e

當環境產生變化時，某些生物可能會絕種。我們可以研究化石來了解古代的動植物和其生活環境。

Some animals become extinct when their environment suddenly changes. (pp. 154-155)

某些動物在生活環境突然產生變化時會絕種。
(第 154-155 頁)

Fossils tell us about animals and environments of the past. (pp. 156-157)

化石可以告訴我們有關過去的動物和環境。
(第 156-157 頁)

Some fossils look like plants and animals that are alive today. (pp. 158-160)

某些化石看起來很像存活於今日的動植物。
(第 158-160 頁)
