

**English**

**Hmong**

**Main Idea** 3 PS 1.b; 3 PS 1.c

**Potential energy** is energy that is stored in objects. **Kinetic energy** is the energy of motion.

**Niam Tswvyim**

3 PS 1.b; 3 PS 1.c

Lub zog loj kawg yog lub zog muaj cia hauv tsavyam khoom. Zog kinetic yog lub zog ua kom txav tau.

**Potential energy** is stored energy. **Kinetic energy** is the energy of motion. (pp. 316 -317)

Lub **zog loj kawg** yog lub zog muaj cia. Zog kinetic yog lub zog ua kom txav tau. (pp. 316 -317)

Foods, fuel, and batteries contain **chemical energy** that can be changed to other energy forms. (pp. 318-319)

Zaub mov, thiab roj av muaj **zog khemis** uas hloov tau mus ua lwm hom zog. (pp. 318-319)

**Machines and living things** are able to change stored energy into kinetic energy. (p. 320)

**Tshuab thiab tsavyam ciaj sia** hloov tau zog muaj cia mus ua zog kinetic. (p. 320)
