Main Idea 4 ES 4.a
 Most sedimentary rocks form when sediments settle in layers. Over a long period of time, the layers change to rock.

主題思想 4 ES 4.a
 大部份的沉積岩都是當沉積物層層堆積時形成的。經過一段很長的時間以後，這些層層堆積的沉積物就轉變為岩石了。

Sedimentary rocks are often formed by layers of sediments. (pp. 162-163)

沉積岩經常是由層層堆積的沉積物所形成的。
 (第 162-163 頁)

The **properties** of sedimentary rocks depend on the minerals they are made up of and the way they are formed. (pp. 164-165)

沉積岩的**特性**取決於構成沉積岩的礦物質以及沉積岩形成的方式。
 (第 164-165 頁)

Sedimentary rocks have many **uses**. (p. 166)

沉積岩有許多**用途**。
 (第 166 頁)
