Main Idea 4 ES 4.a

Most sedimentary rocks form when sediments settle in layers. Over a long period of time, the layers change to rock.

Niam Tswvyim 4 ES 4.a

Ntau hom zeb txheej txawm thaum cov av txheej pib zwm ua tej theem. Raws ib lub caijthaum ntev los lawm, cov theem hloov tau cov zeb tsua.

Sedimentary rocks are often formed by layers of sediments. (pp. 162-163)

Zeb txheej txawm thaum cov av txheej pib zwm ua tej theem. (pp. 162-163)

The **properties** of sedimentary rocks depend on the minerals they are made up of and the way they are formed. (pp. 164-165)
