Main Idea

4 ES 5.a 4 ES 5.c

Earth's surface is always changing. It is shaped and reshaped by water, waves, wind, and ice. Changes that occur to land can take place slowly or quickly.

主題思想 4 ES 5.a 4 ES 5.c

地球的表面不斷在變化。它經歷著水、浪、風和冰一再地塑造。地表可以產生緩慢或迅速的變化。

Erosion and weathering are processes that usually change **landforms** slowly. (pp. 214-215)

侵蝕與風化的過程通常會使**地形**緩慢變化。(第 214-215 頁)

Water, waves, and wind weather and erode Earth's surface. (pp. 216-221)

水、浪和風會風化與侵蝕地球表面。(第 216-221 頁)

Glaciers shape the land as they move over it. (p. 222)

冰河在經過地表時會重塑地形。(第 222 頁)
